

NOTICE TO CUSTOMERS - REVISED BAF

Date: 10th March 2026

Global fuel prices have risen sharply as a result of recent geopolitical events and continuing tensions in the Middle East, leading to a notable increase in bunker costs across the world. Sea-Cargo has no exemptions and is experiencing these same increases. Current market conditions remain highly volatile, and prices are changing rapidly from day to day. Consequently, Sea-Cargo will update the BAF on a weekly basis, rather than the previous monthly schedule, effective immediately. Updates will be sent each Tuesday for the upcoming week until further notice.

As from Monday 16th March, the BAF will be adjusted upwards to **92,5%**, up from previous 67,5%.

We will continue to closely monitor and assess developments in the fuel markets. Every effort will be made to mitigate the impact on our customers and to reduce bunker consumption wherever feasible.

Thank you for your understanding and continued support.
