

NOTICE TO CUSTOMERS - REVISED BAF

Date: 8th April 2026

Last week, global fuel prices continued to rise because of the ongoing geopolitical developments and unrest in the Middle East. Today, following the ceasefire, the market experienced a drop in fuel prices, returning them to previous week's levels.

As a result, the BAF for week 16 will stay at **108%**, unchanged from previous week.

We will continue to closely monitor and assess developments in the fuel markets. Every effort will be made to mitigate the impact on our customers and to reduce bunker consumption wherever feasible. Updates will be sent each Tuesday for the upcoming week until further notice.

Thank you for your understanding and continued support.
