

NOTICE TO CUSTOMERS - REVISED BAF

Date: 14th April 2026

Global fuel prices have exhibited volatility over the past week; however, when factoring in the weaker USD relative to NOK, the average price presents a slightly lower level than the previous week.

As a result, the BAF for week 17 will be reduced to **106%**, down by 2% points from previous week.

We will continue to closely monitor and assess developments in the fuel markets. Every effort will be made to mitigate the impact on our customers and to reduce bunker consumption wherever feasible. Updates will be sent each Tuesday for the upcoming week until further notice.

Thank you for your understanding and continued support.
