

## NOTICE TO CUSTOMERS - REVISED BAF

**Date:** 14<sup>th</sup> April 2026

While global fuel prices remain unstable, the average rates from the past week have been lower, and the US dollar has weakened against the Norwegian krone.

As a result, the BAF for week 18 will be reduced to **101%**, down by 5% points from previous week.

We will continue to closely monitor and assess developments in the fuel markets. Every effort will be made to mitigate the impact on our customers and to reduce bunker consumption wherever feasible. Updates will be sent each Tuesday for the upcoming week until further notice.

Thank you for your understanding and continued support.
