

NOTICE TO CUSTOMERS - REVISED BAF

Date: 28th April 2026

Although global fuel prices continue to be unstable, average rates over the past week have declined, and the US dollar has weakened further against the Norwegian krone.

As a result, the BAF for week 19 will be reduced to **98%**, down by 3% points from previous week.

We will continue to closely monitor and assess developments in the fuel markets. Every effort will be made to mitigate the impact on our customers and to reduce bunker consumption wherever feasible. Updates will be sent each Tuesday for the upcoming week until further notice.

Thank you for your understanding and continued support.
