

NOTICE TO CUSTOMERS - REVISED BAF

Date: 2nd June 2026

Although global fuel prices remain volatile, average rates over the past week were lower.

Accordingly, the BAF for week 24 will be reduced to **91%**, a decrease of 7% points from the previous week.

We will continue to closely monitor and assess developments in the fuel markets. Every effort will be made to mitigate the impact on our customers and to reduce bunker consumption wherever feasible. Updates will be sent each Tuesday for the upcoming week until further notice.

Thank you for your understanding and continued support.
