

## NOTICE TO CUSTOMERS - REVISED BAF

**Date:** 23<sup>rd</sup> June 2026

Bunker prices continued to decline over the past week, supported by optimism around a potential peace agreement between the US and Iran.

Accordingly, the BAF for week 27 will be reduced to **82%**, a reduction of 7% points from the previous week.

We will continue to closely monitor and assess developments in the fuel markets. Every effort will be made to mitigate the impact on our customers and to reduce bunker consumption wherever feasible. Updates will be sent each Tuesday for the upcoming week until further notice.

Thank you for your understanding and continued support.
