

NOTICE TO CUSTOMERS - REVISED BAF

Date: 4th August 2026

Last week, oil prices have had minor changes against previous week.

Accordingly, the BAF for week 33 will remain at **101%**.

We will continue to closely monitor and assess developments in the fuel markets. Every effort will be made to mitigate the impact on our customers and to reduce bunker consumption wherever feasible. Updates will be sent each Tuesday for the upcoming week until further notice.

Thank you for your understanding and continued support.
